

Workers' Compensation Services for the Craft Beer Industry

Claims Services

- Discuss new carrier's workers' compensation procedures
- Claims review and management: regularly scheduled employer meetings (based on your needs) to review outstanding claims and ensure claims are reserved appropriately and closed in a timely manner
- Regular review of loss runs and open claims which would identify the need to discuss in further detail with claims examiners and employer
- Discuss open claims with assigned claims examiners and exchange claim status information with employer
- Experience modification projection: In-depth client meeting, six months prior to policy renewal, to review all data that will be included in upcoming experience modification factor
- Periodically prepare written claim review for four policy years
- Review and advise on first aid program
- Strategic, ongoing evaluation of occupational medical providers: Work with provider to determine how best to control medical treatment and still be respectful of employee but cognizant of claims impact on employer
- Schedule educational meetings for staff directly involved in management of workers compensation for employer
- Review MPN documents to be provided to employees
- Compliance: current requirements and changes in workers' compensation rules and regulations are communicated timely to each client.
